

SENSITIVE AREA REASONABLE USE ALLOWANCE

COMMUNITY DEVELOPMENT
10220 270th Street NW Stanwood, WA 98292

INSTRUCTIONS

Please submit the following with your permit application:

- Sensitive Area Reasonable Use Informational Sheet
- Land Use Application Form
- Permit Submittal Requirements
- Plan Sheet Requirements

CITY OF STANWOOD COMMUNITY DEVELOPMENT CONTACT INFORMATION

Address: 10220 270th Street NW
Stanwood, WA 98292

Phone Number: 360-629-2181

Office Hours: Monday – Friday 9:00 am to 5:00 pm

Online Applications: <http://www.ci.stanwood.wa.us/cd/page/land-use-permit-applications>

SENSITIVE AREA REASONABLE USE ALLOWANCE INFORMATIONAL SHEET

COMMUNITY DEVELOPMENT
10220 270th Street NW Stanwood, WA 98292

INSTRUCTIONS

The table below outlines the minimum requirements that shall be met for Sensitive Area Reasonable Use Allowance.

RIGHT-TO-FARM REQUIREMENTS

CRITERIA

One or more of the following criteria for review and approval of reasonable use exceptions may apply:

- The application of this chapter or Chapter 17.115 through 17.135 SMC would deny all reasonable economic use of the property;
- No other reasonable economic use of the property has less impact on the critical areas;
- The proposed impact to the critical area is the minimum necessary to allow for reasonable economic use of the property;
- The inability of the applicant to derive reasonable economic use of the property is not the result of actions by the applicant after the effective date of the ordinance codified in this chapter, or its predecessor;
- The proposal does not pose an unreasonable threat to the public health, safety, or welfare on or off the development proposal site;
- The proposal will result in no net loss of critical area functions and values consistent with best available science; or
- The proposal is consistent with other applicable regulations and standards.

APPLICANT CERTIFICATION

I certify that I am the Owner or Owner’s authorized agent. If acting as an authorized agent, I further certify that I am authorized to act as the Owners agent regarding the property at the above referenced address for the purpose of filing applications for permits or review under the Stanwood Municipal Code and I have full power and authority to perform on behalf of the Owner all acts required to enable the City to process and review such applications.

I do hereby declare under penalty of perjury under the laws of the State of Washington that I have familiarized myself with the rules and regulations with respect to preparing and filing this application and that the statements and information submitted herewith are in all respects true and correct to the best of my knowledge and belief.

Applicant’s Signature Date

Print Name

REAL PROPERTY OWNER CERTIFICATION

I do hereby declare under penalty of perjury under the laws of the State of Washington that I am the owner of the subject property or an officer/member of the entity owning the subject property, that it is my desire to seek the subject land use permit, and that I will abide by any requirements and conditions that may be part of the approval of this request. I also hereby grant permission for City employees, agents of the City and/or other agency officials to enter the subject property, if necessary, for the purpose of site inspections.

Owner’s Signature Date

Print Name

For additional owners please supply each owners name, signature and date on a separate sheet.

11.	Administrative Variance unless comments are received during noticing, then Hearing Examiner Decision.										

SITE PLAN REQUIREMENTS

COMMUNITY DEVELOPMENT
10220 270th Street NW Stanwood, WA 98292

INSTRUCTIONS

The table below outlines the minimum information that must be provided on your plan sheets. All plans must be prepared by—or under the supervision of—a Washington State registered engineer, architect, landscape architect, or land surveyor illustrating the proposed development of the property.

SITE PLAN SHEET REQUIREMENTS

COVER SHEET

- Title Block (centered at top of drawing) that includes the following:
 - City of Stanwood
 - Name of Proposed Development
 - File Number
 - Section, Township, & Range
- Site Information:
 - Site Address
 - Zoning Classification
 - Proposed Use
 - Zoning Standards:
 - Lot(s) Size (both in acreage and square feet)
 - Lot Dimensions (length, width) and Numbers/Letters
 - Proposed Residential Density (if applicable)
 - Building Setback (for existing, proposed, & relocated bldgs. on site)
 - Building Height (for existing, proposed, & relocated bldgs. on site)
 - Total Lot Coverage (Impervious Surface)
 - Recreational & Open Space Calculations (if applicable)
 - Adjacent Street Names & Classifications
 - Required Parking Space Calculations (required & proposed)
 - Utility Provider (Sewer & Water)
 - Datum (if applicable)
 - Critical Area Types Located On-Site (If Applicable)
 - Shoreline Classification (If Applicable)
- Sheet Index
- Date Plans Were Prepared
- Vicinity Map (Include North Arrow, Scale, and pinpoint site location)
- Record of Survey. The surveyor shall certify on the site plan that it is a true and correct representation of the lands actually surveyed and the survey was done in accordance with the city and state law.
- Name, Address, Phone Number, & Email Address of the Applicant, Owner, Engineer, & Landscape Architect

SITE PLAN SHEET

- Title Bar (locate along right edge of sheet) that includes the following:
 - Date Drawing was Prepared or Revised
 - Project Name & Location
 - Name, Address, & Phone Number of Applicant, Owner, Engineer, & Surveyor

- Topographical features showing present grades and any proposed grades if present grades are to be altered. Unless otherwise required by the community development director, contours at an interval not greater than five feet shall be shown.
- Existing Lot Lines Within or Adjacent to the Project Site
- Existing and Proposed Rights-of-Way (include dimensions & street name)
- Existing and Proposed Easements (include dimensions)
- Existing Critical Area Boundaries and Associated Buffers On-Site and Within 150ft. of Site
- Building (whether proposed, expanded, retained, or relocated) Setbacks From All Lot Lines
- Building (whether proposed, expanded, retained, or relocated) Dimensions and Square Footage
- Building (whether proposed, expanded, retained, or relocated) Height
- Building Elevations (all sides for proposed or expanded)
- Parking Stall, Loading Stall, Driveway, & Isle Locations & Dimensions
- Refuse Bin Location (including screening details)
- Lighting Details (building exterior, site, & parking area)
- Site Ingress/Egress (existing and/or proposed)
- Frontage Improvements with Dimensions (if required)
- Open Space / Recreation Space (location & total area)
- Proposed Surface Stormwater Drainage Treatment
- Streets, Alleys, or other Public Rights-of-Way, Public Parks and Places and all Lots and Lot Lines, Drainageways, Waterways & Easements
- Open Storage Space (locations and designation)
- Documented Historic Sites (locations and designation)

LANDSCAPE PLAN SHEET

- Plant Schedule and Legend Showing Scientific and Common Names for Each Type of Tree, Shrub, and Ground Cover and their Quantity, Planting Size Mature Size, and Symbol.
- Tree, Shrub, and Lawn Planting Details
- Location and Spacing of All Trees, Shrubs, and Plants (including existing trees to be preserved)
- Irrigation Details (if required)
- Parking Area Planting Calculation (see SMC 17.145)
- Tree Retention Calculations (see SMC 17.145)
- Dimensions for Each Landscape Area, Including Frontage, Lot Boundary, and Vehicle Accommodation Area Landscaping

SEPA CHECKLIST REQUIREMENTS

COMMUNITY DEVELOPMENT
10220 270th Street NW Stanwood, WA 98292

INSTRUCTIONS

A SEPA Checklist is required for projects that are over certain environmental threshold limits. The following are the City of Stanwood environmental categorical exemptions and threshold limits (listed in SMC 17.149). If your project exceeds the thresholds, than an environmental checklist must be submitted concurrently with all other submittal requirements for your project.

In order to receive an exemption your project must meet all of the applicable thresholds listed below. Please check the exemptions your project meets:

Categorical Exemptions:

- The construction of any single-family residential structures 30 dwellings or fewer.
- The construction of any multi-family residential structures of less than or equal to 60 dwelling units.
- The construction of a barn, loafing shed, farm equipment storage building, produce storage or packing structure, or similar agricultural structure, covering 40,000 square feet or less, and to be used only by the property owner or his or her agent in the conduct of farming the property. This exemption shall not apply to feed lots.
- The construction of an office, school, commercial, recreational, service or storage building 30,000 square feet or less of gross floor area, and with associated parking facilities and/or independent parking facility designed for 90 parking spaces or fewer.
- Any landfill or excavation of 1,000 or fewer cubic yards throughout the total lifetime of the fill or excavation; and any fill or excavation calssified as a class I, II, or III forest practice under RCW 76.09.050 or regulations thereunder.

OR

SEPA Environmental Checklist:

- Completed SEPA Environmental Checklist that addresses the proposed project action.
- Completed SEPA Environmental Checklist that addresses the proposed non-project action.

SEPA ENVIRONMENTAL CHECKLIST

Purpose of checklist:

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions for applicants:

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Instructions for Lead Agencies:

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

Use of checklist for nonproject proposals:

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the [SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS \(part D\)](#). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in Part B - Environmental Elements –that do not contribute meaningfully to the analysis of the proposal.

A. Background

1. Name of proposed project, if applicable:
2. Name of applicant:
3. Address and phone number of applicant and contact person:

4. Date checklist prepared:
5. Agency requesting checklist:
6. Proposed timing or schedule (including phasing, if applicable):
7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.
9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.
10. List any government approvals or permits that will be needed for your proposal, if known.
11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)
12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

B. Environmental Elements

1. Earth

- a. General description of the site:

(circle one): Flat, rolling, hilly, steep slopes, mountainous, other _____

- b. What is the steepest slope on the site (approximate percent slope)?
- c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.
- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

- e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill.
- f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.
- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?
- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

2. Air

- a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.
- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.
- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

3. Water

a. Surface Water:

- 1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.
- 2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.
- 3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.
- 4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.
- 5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

b. Ground Water:

1) Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals. . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

c. Water runoff (including stormwater):

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

2) Could waste materials enter ground or surface waters? If so, generally describe.

3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.

d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any:

4. **Plants**

a. Check the types of vegetation found on the site:

____deciduous tree: alder, maple, aspen, other

____evergreen tree: fir, cedar, pine, other

- ___ shrubs
- ___ grass
- ___ pasture
- ___ crop or grain
- ___ Orchards, vineyards or other permanent crops.
- ___ wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- ___ water plants: water lily, eelgrass, milfoil, other
- ___ other types of vegetation

- b. What kind and amount of vegetation will be removed or altered?
- c. List threatened and endangered species known to be on or near the site.
- d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:
- e. List all noxious weeds and invasive species known to be on or near the site.

5. Animals

- a. List any birds and other animals which have been observed on or near the site or are known to be on or near the site.

Examples include:

- birds: hawk, heron, eagle, songbirds, other:
- mammals: deer, bear, elk, beaver, other:
- fish: bass, salmon, trout, herring, shellfish, other _____

- b. List any threatened and endangered species known to be on or near the site.
- c. Is the site part of a migration route? If so, explain.
- d. Proposed measures to preserve or enhance wildlife, if any:
- e. List any invasive animal species known to be on or near the site.

6. Energy and Natural Resources

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

7. Environmental Health

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.
 - 1) Describe any known or possible contamination at the site from present or past uses.

 - 2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

 - 3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.

 - 4) Describe special emergency services that might be required.

 - 5) Proposed measures to reduce or control environmental health hazards, if any:

b. Noise

- 1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

- 2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

- 3) Proposed measures to reduce or control noise impacts, if any:

8. Land and Shoreline Use

- a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.

- b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use?
 - 1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how:

- c. Describe any structures on the site.

- d. Will any structures be demolished? If so, what?

- e. What is the current zoning classification of the site?

- f. What is the current comprehensive plan designation of the site?

- g. If applicable, what is the current shoreline master program designation of the site?

- h. Has any part of the site been classified as a critical area by the city or county? If so, specify.

- i. Approximately how many people would reside or work in the completed project?

- j. Approximately how many people would the completed project displace?

- k. Proposed measures to avoid or reduce displacement impacts, if any:

- L. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

- m. Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any:

9. Housing

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

- c. Proposed measures to reduce or control housing impacts, if any:

10. Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

- b. What views in the immediate vicinity would be altered or obstructed?

- b. Proposed measures to reduce or control aesthetic impacts, if any:

11. Light and Glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

- c. What existing off-site sources of light or glare may affect your proposal?

- d. Proposed measures to reduce or control light and glare impacts, if any:

12. Recreation

- a. What designated and informal recreational opportunities are in the immediate vicinity?
- b. Would the proposed project displace any existing recreational uses? If so, describe.
- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

13. Historic and cultural preservation

- a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers ? If so, specifically describe.
- b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.
- c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.
- d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.

14. Transportation

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.
- b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?
- c. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate?
- d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).

- e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

- f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates?

- g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.

- h. Proposed measures to reduce or control transportation impacts, if any:

15. Public Services

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe.

- b. Proposed measures to reduce or control direct impacts on public services, if any.

16. Utilities

- a. Circle utilities currently available at the site:
 electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system,
 other _____

- c. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

C. Signature

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature: _____

Name of signee _____

Position and Agency/Organization _____

Date Submitted: _____

D. Supplemental sheet for nonproject actions

(IT IS NOT NECESSARY to use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

Proposed measures to avoid or reduce such increases are:

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

3. How would the proposal be likely to deplete energy or natural resources?

Proposed measures to protect or conserve energy and natural resources are:

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

Proposed measures to protect such resources or to avoid or reduce impacts are:

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

Proposed measures to avoid or reduce shoreline and land use impacts are:

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

Proposed measures to reduce or respond to such demand(s) are:

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.

PUBLIC NOTICE MATERIALS

COMMUNITY DEVELOPMENT
10220 270th Street NW Stanwood, WA 98292

INSTRUCTIONS

The following items must be submitted concurrently with all other required submittals as indicated in the submittal requirements.

- Snohomish County Assessor's Quarter Section Map Including the following:
 - Show Subject Property
 - Show 300 foot Boundary of all Properties Included

- Current Owner List (of properties within 300 ft. radius) Including the following:
 - Tax Parcel Numbers
 - Owner(s) Full Name(s)
 - Owner(s) Mailing Address
 - Current Resident (if owner does not live at property)
 - Property Mailing Address (if different from owner's address)

- Mailing Labels Including the following:
 - Owner(s) Name
 - Owner(s) Mailing Address
 - Current Resident (if owner does not live at property)
 - Property Mailing Address (if different from owner's address)
